Vol. 27, No. 12, December 1981
Printed in U.S.A.

INDEX TO VOLUME 27*

Authors

AHARONI, YAIR, Performance Evaluation of State-Owned Enterprises: A Process Perspective **(State-Owned Enterprises; Performance Evaluation; Social Control)**, 1340.

ALAVI, MARYAM and HENDERSON, JOHN C., An Evolutionary Strategy for Implementing a Decision Support System **(System Design; Management Information Systems; Linear Decision Rules; OR/MS Implementation)**, 1309.

ARCHIBALD, BLYTH C., Continuous Review *(s, S)* Policies with Lost Sales **(Inventory/Production — Applications; Inventory/Production — Stochastic Models)**, 1171.

AYRES, HERBERT F., see BARRY, JOHN Y.

BAKER, N. R., see WINKOFSKY, E. P.

BAKKEN, O. A., see MAR, B. W.

BANKER, CHARNES, A., COOPER, W. W. and SCHINNAR, A. P., A Bi-Extremal Principle for Frontier Estimation and Efficiency Evaluations **(Efficiency; Decision Making Units; Production Functions; Efficiency Frontiers)**, 1370.

BARLACH, ZIV, see CHELST, KENNETH R.

BARRY, JOHN Y. and AYRES, HERBERT F., Erratum to "A Theory of the U.S. Treasury Market Equilibrium" **(Finance — Securities; Finance — Investment)**, 1092.

BASTABLE, C. W., Application of Management Science Tools to Accounting Problems: Communication to the Editor, 1091.

BAZARAA, MOKHTAR S. and BOUZAHER, AZIZ, A Linear Goal Programming Model for Developing Economies with an Illustration from the Agricultural Sector in Egypt **(Programming — Linear, Applications; Economics; Planning)**, 396.

BEHRMAN, DOUGLAS N., BIGONESS, WILLIAM J. and PERREAULT, WILLIAM D., JR., Sources of Job Related Ambiguity and their Consequences upon Salespersons' Job Satisfaction and Performance **(Performance and Satisfaction; Job Ambiguity; Individual Differences)**, 1246.

BEN-DOV, YOSI, Optimal Testing Procedures for Special Structures of Coherent Systems **(Reliability; Testing; Coherent Systems)**, 1410.

BENEDICT, G., see KOHL, R.

BIGONESS, WILLIAM J., see BEHRMAN, DOUGLAS N.

BIRNBAUM, PHILIP H., Contingencies for Interdisciplinary Research: Matching Research Questions with Research Organizations **(Research and Development; Statistics — Regression; Statistics — Correlation; Education Systems)**, 1279.

BITRAN, GABRIEL R., CHANDRU, VIJAYA, SEMPOLINSKI, DOROTHY and SHAPIRO, JEREMY F., Inverse Optimization: An Application to the Capacitated Plant Location Problem **(Programming — Integer Algorithms)**, 1120.

——— and HAX, ARNOLDO C., Disaggregation and Resource Allocation Using Convex Knapsack Problems with Bounded Variables **(Programming — Algorithms, Knapsack Problem)**, 431.

BLANNING, ROBERT W., Variable-Base Budgeting for R & D **(Research and Development — Project Selection; Zero-Base Budgeting)**, 547.

BLATTBERG, ROBERT C. and JEULAND, ABEL P., A Micromodeling Approach to Investigate the Advertising-Sales Relationship **(Marketing; Marketing — Advertising/Promotion)**, 988.

BORDLEY, ROBERT F. and WOLFE, RONALD W., On the Aggregation of Individual Probability Estimates **(Forecasting; Forecasting — Delphi Technique; Games/Group Decisions; Probability)**, 959.

BOUZAHER, AZIZ, see BAZARAA, MOKHTAR S.

BRADLEY, GORDON H., see BROWN, GERALD G.

BRETSCHNEIDER, STUART I. and GORR, WILPEN L., On the Relationship of Adaptive Filtering Forecasting Models to Simple Brown Smoothing **(Forecasting — Time Series)**, 965.

BRILL, P. H. and POSNER, M. J. M., A Two Server Queue with Nonwaiting Customers Receiving Specialized Service **(Queues; Multiple Server; Waiting Time Dependent Service)**, 914.

BROWN, GERALD G., GEOFFRION, ARTHUR M. and BRADLEY, GORDON H., Production and Sales Planning with Limited Shared Tooling at the Key Operation **(Inventory/Production Applications; Production — Flow Shop; Integer Programming Applications)**, 247.

——— and GRAVES, GLENN W., Real-Time Dispatch of Petroleum Tank Trucks **(Petroleum Industry; Transportation, Route Selection; Integer Programming, Heuristic; Integer Programming, Applications; Vehicle Dispatching)**, 19.

BUCHANAN, JACK R. and FENNELL, RICHARD D., Model-Directed Information Systems for Management of the Federal Courts **(Government; Information Systems — Deterministic Models; Philosophy of Modeling)**, 887.

CARPANETO, GIORGIO and TOTH, PAOLO, Erratum to "Branching and Bounding Criteria for the Asymmetric Travelling Salesman Problem" **(Assignment Problem; Asymmetric TSP; Branch and Bound; Subtour Elimination)**, 1093.

CHAMBERS, D. J., see LIOUKAS, S. K.

Deployment of One- vs. Two-Officer Patrol Units: A Comparison of Travel Times **(Government Services — Police; Manpower Planning; Probability — Stochastic Model Applications)**, KENNETH R. CHELST, 212.

Determinants of Information Value: Synthesizing Some General Results, The **(Decision Analysis; Economics)**, RONALD W. HILTON, 57.

Diffusion Approximations for Bulk Queues, A **(Bulk Queues; Diffusion Approximations)**, SINGHA CHIAMSIRI and MICHAEL S. LEONARD, 1188.

Disaggregation and Resource Allocation Using Convex Knapsack Problems with Bounded Variables **(Programming — Algorithms, Knapsack Problem)**, GABRIEL R. BITRAN and ARNOLDO C. HAX, 431.

Due Date Assignment for Production Systems **(Production/Scheduling — Job Shop, Stochastic; Queues — Optimization)**, ABRAHAM SEIDMANN and MILTON L. SMITH, 571.

Early Diagnosis of MIS Implementation Failure: Promising Results and Unanswered Questions **(Management Science Implementation)**, MICHAEL J. GINZBERG, 459.

Efficiency of the Market for Racetrack Betting **(Finance — Portfolio; Games — Gambling)**, DONALD B. HAUSCH, WILLIAM T. ZIEMBA and MARK RUBINSTEIN, 1435.

Erratum to "An Example of a Multi-Object Auction Game" **(Auctions; Competitive Bidding)**, RICHARD ENGELBRECHT-WIGGANS and ROBERT J. WEBER, 970.

Erratum to "A Theory of the U.S. Treasury Market Equilibrium" **(Finance — Securities; Finance — Investment)**, JOHN Y. BARRY and HERBERT F. AYRES, 1092.

Erratum to "Branching and Bounding Criteria for the Asymetric Travelling Salesman Problem" **(Assignment Problem; Asymetric TSP; Branch and Bound; Subtour Elimination)**, GIORGIO CARPANETO and PAOLO TOTH, 1093.

Estimation of Bid Distributions in Real Estate Markets, On the **(Bidding; Real Estate)**, PETER TRYFOS, 587.

Evaluating Program and Managerial Efficiency: An Application of Data Envelopment Analysis to Program Follow Through **(Program Efficiency; Managerial Efficiency; Efficiency Frontiers)**, A. CHARNES, W. W. COOPER and E. RHODES, 668.

Evolutionary Strategy for Implementing a Decision Support System, An **(System Design; Management Information Systems; Linear Decision Rules; OR/MS Implementation)**, MARYAM ALAVI and JOHN C. HENDERSON, 1309.

Expectations and Share Prices **Finance; Finance — Investment)**, EDWIN J. ELTON, MARTIN J. GRUBER and MUSTAFA GULTEKIN, 975.

Expected-Utility-Maximizing Price Search with Learning **(Decision Analysis — Sequential; Dynamic Programming — Bayesian; Utility/Preference — Applications)**, RONALD M. HARSTAD and ANDREW POSTLEWAITE, 75.

Experimental Investigation of the Use of Computer-Based Graphics in Decision Making, An **(Information System Design; Decision Support; Laboratory Experiment)**, HENRY C. LUCAS, JR., 757.

Forecasting and Planning: An Evaluation **(Planning; Forecasting Applications)**, ROBIN M. HOGARTH and SPYROS MAKRIDAKIS, 115.

Formulating Technology Policy and Planning Industrial R & D Activities **(Research and Development; Planning; Simulation — Applications)**, MUHITTIN ORAL, JEAN-LOUIS MALOUIN and JOËL RAHN, 1294.

Further Tests of Aspiration Level Effects in Risky Choice Behavior **(Decision Making; Aspiration Level; Utility Preference)**, JOHN W. PAYNE, DAN J. LAUGHHUNN and ROY CRUM, 953.

Greedy Heuristic for Single Machine Sequencing with Precedence Constraints, A **(Production/Scheduling; Heuristic — Greedy; Programming — Integer Algorithms, Branch and Bound)**, HOWARD J. WEISS, 1209.

Heuristic Techniques for Simultaneous Scheduling of Production and Distribution in Multi-Echelon Structures: Theory and Empirical Comparisons **(Production/Scheduling; Inventory/Production — Deterministic Models; Marketing — Distribution)**, JACK F. WILLIAMS, 336.

Hybrid Method for the Solution of Some Multi-Commodity Spatial Equilibrium Problems, A **(Networks/Graphs — Multi-Commodity; Programming — Complementary; Spatial Equilibrium Models)**, JONG-SHI PANG, 1142.

Interpretation of Fractional Objectives in Goal Programming as Related to Papers by Awerbuch et al., and Hannan, on An **(Programming — Fractional; Programming — Goal)**, EDWARD L. HANNAN, 847.

Inverse Optimization: An Application to the Capacitated Plant Location Problem **(Programming — Integer Algorithms)**, GABRIEL R. BITRAN, VIJAYA CHANDRU, DOROTHY E. SEMPOLINSKI and JEREMY F. SHAPIRO, 1120.

Investigation of Competitive Preference Structures and Posterior Performance through a Bayesian Decision-Theoretic Approach, An **(Games — Noncooperative; Decision Analysis — Sequential; Utility/Preference)**, JEHOSHUA ELIASHBERG, 785.

Investigation of the Equal Commission Rate Policy for a Multi-Product Saleforce, An **(Marketing; Marketing — Salesforce)**, V. SRINIVASAN, 731.

Lagrangian Relaxation Method for Solving Integer Programming Problems, The **(Programming — Integer Algorithms; Programming — Integer Algorithms, Branch and Bound; Programming — Integer Algorithms, Heuristic)**, MARSHALL L. FISHER, 1.

Linear Fractional Portfolio Selection Problem, The **(Finance — Portfolio; Programming — Fractional)**, BRUCE H. FAALAND and NANCY L. JACOB, 1383.

Linear Goal Programming Model for Developing Economies with an Illustration from the Agricultural Sector in Egypt, A **(Programming — Linear, Applications; Economics; Planning)**, MOKHTAR S. BAZARAA and AZIZ BOUZAHER, 396.

Management Science in the 1980s: Communication to the Editor, C. BERNHARD TILANUS, 1088.

Managerial Strategic Behavior in State-Owned Enterprises — Business and Political Orientations **(State-Owned Enterprises; Business and Politics)**, JEHIEL ZIF, 1326.

Marketing Channel as an Equilibrium Set of Contracts, The **(Marketing — Distribution; Games/Group Decisions — Bargaining)**, PINHAS ZUSMAN and MICHAEL ETGAR, 284.

Methods of Large Project Assessment Given Uncertainty in Future Energy Pricing **(Energy; Capital Budgeting; Capital Assets)**, BASIL A. KALYMON, 377.

Micromodeling Approach to Investigate the Advertising-Sales Relationship, A **(Marketing; Marketing — Advertising/Promotion)**, ROBERT C. BLATTBERG and ABEL P. JEULAND, 988.

Minimizing Makespan with Bimodal Processing Time Distributions **(Stochastic Scheduling; Reliability Theory)**, MICHAEL PINEDO, 582.

Minimizing Net Interest Cost in Municipal Bond Bidding **(Finance; Securities; Integer Programming)**, ROBERT M. NAUSS and B. R. KEELER, 365.

Minimizing Variation of Flow Time in Single Machine Systems **(Production/Scheduling — Flow Shop; Programming — Heuristic)**, JOHN J. KANET, 1453.

Mixed Integer Programming Model for Regional Planning of a Hospital Inpatient Service, A **(Programming — Integer, Applications; Health Care — Hospital Inpatient Services; Regional Planning)**, R. JEAN RUTH, 521.

Model-Directed Information Systems for Management of the Federal Courts **(Government; Information Systems — Deterministic Models; Philosophy of Modeling)**, JACK R. BUCHANAN and RICHARD D. FENNELL, 887.

Model for Optimizing Retail Space Allocation, A **(Marketing — Retailing; Programming — Geometric)**, MARCEL CORSTJENS and PETER DOYLE, 822.

Models for Affirmative Action Planning and Evaluation: Communication to the Editor, A. CHARNES, W. W. COOPER, K. A. LEWIS and R. J. NIEHAUS, 1465.

Modified One-Center Model, On a **(Location Problems; Programming — Integer Algorithms)**, ZVI DREZNER, 848.

Multiple Objective Linear Fractional Programming **(Programming — Multiple Criteria)**, JONATHAN S. H. KORNBLUTH and RALPH E. STEUER, 1024.

Multiple Unit Dispatches in Emergency Services: Models to Estimate System Performance **:Government Services — Police; Performance Measurement; Probability — Stochastic Model Applications)**, KENNETH R. CHELST and ZIV BARLACH, 1390.

Nonstationary Model of Binary Choice Applied to Media Exposure, A **(Marketing; Marketing — Advertising/Promotion; Probability — Applications)**, DARIUS J. SABAVALA and DONALD G. MORRISON, 637.

Objective Function Perturbation with Economic Interpretation, An **(Nonlinear Programming Theory)**, A.L. SOYSTER, 231.

Operating Characteristics of an Inventory System with Rationaling **(Inventory/Production — Policies, Issuing; Inventory/Production — Approximations; Inventory/Production — Stochastic Models)**, STEVEN NAHMIAS and W. STEVEN DEMMY, 1226.

Optimal Testing Procedures for Special Structures of Coherent Systems **(Reliability; Testing; Coherent Systems)**, YOSI BEN-DOV, 1410.

Over-Tenured Universities: The Mathematics of Reduction **(Organizational Design; Higher Education; Tenure Policy)**, JAMES W. VAUPEL, 904.

Parametric Representation of Additive Value Functions, A **(Multiattribute; Utility; Parametric Preference Tradeoffs; Value Functions)**, THOMAS W. KEELIN, 1200.

Participative Design of Strategic Decision Support Systems: An Empirical Assessment **(Information Systems; Computers — Systems Design)**, WILLIAM R. KING and JAMIE I. RODRIGUEZ, 717.

Performance Evaluation of State-Owned Enterprises: A Process Perspective **(State-Owned Enterprises; Performance Evaluation; Social Control)**, YAIR AHARONI, 1340.

Perspective on the Use of Control Variables to Increase the Efficiency of Monte Carlo Simulation, A **(Simulation; Control Variables; Variance Reduction)**, S. S. LAVENBERG and P. D. WELCH, 322.

Planned Change: Prospects for the 1980s **(Organization Design; Planned Change; Problem Solving)**, GERALD I. SUSMAN, 139.

Policy Analyses for an Infant Technology: Hot Dry Rock Geothermal Resources **(Energy; Research and Development — Project Selection; Technology)**, RONALD CUMMINGS, GLENN MORRIS and INJA PAIK, 559.

Polynomially Bounded Algorithm for a Nonlinear Network Allocation Problem, A **(Networks/Graphs — Flow Algorithms)**, T. R. ELKEN, H. T. FREEDMAN and A. E. GIBSON, 1054.

Portfolio Optimization Models for Property-Liability Insurance Companies: An Analysis and some Extensions **(Financial Institutions — Insurance; Portfolio Optimization)**, J. DAVID CUMMINS and DAVID J. NYE, 414.

Predicting Future Random Events Based on Past Performance **(Marketing; Forecasting; Probability)**, DONALD G. MORRISON and DAVID C. SCHMITTLEIN, 1006.

Prediction Intervals for Warranty Reserves and Cash Flows **(Marketing — Warranty Policy; Accounting; Marketing — Pricing)**, JAYPRAKASH G. PATANKAR and GEORGE H. WORM, 237.

Product-Mix Models when Learning Effects Are Present **(Production/Scheduling; Programming — Nonlinear; Production/Scheduling — Learning)**, GARY R. REEVES and JAMES R. SWEIGART, 204.

Production and Sales Planning with Limited Shared Tooling at the Key Operation **(Inventory/Production Applications; Production — Flow Shop; Integer Programming Applications)**, GERALD G. BROWN, ARTHUR M. GEOFFRION and GORDON H. BRADLEY, 247.

Profit Maximizing Perceptual Positions: An Integrated Theory for the Selection of Product Features and Price **(Marketing; Marketing — New Products; Marketing — Pricing)**, JOHN R. HAUSER and PATRICIA SIMMIE, 33.

Project Appraisal Methodology: A Multidimensional R&D Benefit/Cost Assessment Tool **(Research and Development — Project Selection; Project Management; Utility/Preference — Applications)**, BARRY G. SILVERMAN, 802.

Project Scheduling with Continuously-Divisible Double Constrained Resources **(Project Management — Resource Constraints; Networks/Graphs)**, JAN WEGLARZ, 1040.

Quadratic Assignment Problem: An Experimental Evaluation of Solution Strategies, The **(Quadratic Assignment Problem)**, ROBIN SEGERBLOM LIGGETT, 442.

Real-Time Dispatch of Petroleum Tank Trucks **(Petroleum Industry; Tansportation, Route Selection; Integer Programming, Heuristic; Integer Programming, Applications; Vehicle Dispatching)**, GERALD G. BROWN and GLENN W. GRAVES, 19.

Recent Developments in Management Science in Banking **(Finance; Financial Institutions — Banks)**, KALMAN J. COHEN, STEVEN F. MAIER and JAMES H. VANDER WEIDE, 1097.

Relationship of Adaptive Filtering Forecasting Models to Simple Brown Smoothing, On the **(Forecasting — Time Series)**, STUART I. BRETSCHNEIDER and WILPEN L. GORR, 965.

Research on State-Owned Enterprises — Introduction, ARIE Y. LEWIN, 1324.

Resource Allocation and Evaluation Model for Providing Services to the Mentally Retarded, A **(Government — Resource Allocation; Health Care; Linear Programming — Applications)**, KARL HEINER, WILLIAM A. WALLACE and KEVIN YOUNG, 769.

Response to Charnes, Cooper, Lewis, and Niehaus: Communication to the Editor, DAVID S. P. HOPKINS, 1469.

Risk Sharing and Group Decision Making **(Group Decision Making; Risk Sharing; Multiattribute Utility)**, JEHOSHUA ELIASHBERG and ROBERT L. WINKLER, 1221.

Sampling Relationship between Sharpe's Performance Measure and Its Risk Proxy: Sample Size, Investment Horizon and Market Conditions, The **(Finance — Investments; Portfolio; Statistics — Sampling)**, SON-NAN CHEN and CHENG F. LEE, 607.

Selecting a Portfolio of Solar Energy Projects Using Multiattribute Preference Theory **(Research and Development — Project Selection; Utility/Preference — Multiattribute; Programming — Integer, Applications)**, KAMAL GOLABI, CRAIG W. KIRKWOOD and ALAN SICHERMAN, 174.

Selective Sequential Zero-Base Budgeting Procedures Based on Total Factor Productivity Indicators **(Organizational Studies; Zero-Based Budgeting; Productivity)**, A. ISHIKAWA and E. F. SUDIT, 534.

Service Level Relationships in a Multi-Echelon Inventory System **(Inventory; Multi-Echelon; Safety Stock; Heuristic)**, BARBARA AMDUR ROSENBAUM, 926.

Sources of Job Related Ambiguity and their Consequences upon Salespersons' Job Satisfaction and Performance **(Performance and Satisfaction; Job Ambiguity; Individual Differences)**, DOUGLAS N. BEHRMAN, WILLIAM J. BIGONESS and WILLIAM D. PERREAULT, JR., 1246.

Stochastic Cutting Stock Procedure: Cutting Rolls of Insulating Tape, A **(Production/Scheduling — Cutting Stock; Inventory/Production — Reject Allowance; Probability — Stochastic Model Applications)**, D. SCULLI, 946.

Strategic Control of Corporate Development under Ambiguous Circumstances **(Corporate Strategy; Corporate External Environment)**, TIMOTHY RUEFLI and JACQUES SARRAZIN, 1158.

Survey of Methods for Pure Nonlinear Integer Programming, A **(Programming — Integer Nonlinear Algorithm)**, MARY W. COOPER, 353.

Theme Appreciation as a Construct for Organizational Change **(Organization Change; Quality of Working Life; Productivity)**, ROBERT W. KEIDEL, 1261.

Theory and Application of an Optimizing Procedure for Lock Box Location Analysis **(Programming —**

Integer, Applications; Financial Institutions — Banks), ROBERT M. NAUSS and ROBERT E. MARKLAND, 855.

Theory of Optimal Agenda Design, A **(Dynamic Programming — Applications; Games/Group Decisions — Voting/Committees)**, RICHARD D. McKELVEY, 303.

Two Server Queue with Nonwaiting Customers Receiving Specialized Service, A **(Queues; Multiple Server; Waiting Time Dependent Service)**, P. H. BRILL and M. J. M. POSNER, 914.

Two-Stage Model for the Control of Epidemic Influenza, A **(Health Care — Epidemiology; Cost Benefit Analysis; Deterministic Epidemic Model)**, STAN N. FINKELSTEIN, CHARLES N. SMART, ANDREW M. GRALLA and CECILIA R. d'OLIVIERA, 834.

Two Stage Solution Procedure for the Lock Box Location Problem, A **(Finance; Programming — Integer Algorithms; Heuristics)**, BRUCE D. FIELITZ and DANIEL L. WHITE, 881.

Value of Decision Making in a Complex Environment: An Experimental Approach, The **(Organizational Studies; Decision Making — Human; Decision Rules)**, ROBIN M. HOGARTH and SPYROS MAKRIDAKIS, 93.

Variable-Base Budgeting for R & D **(Research and Development — Project Selection; Zero-Base Budgeting)**, ROBERT W. BLANNING, 547.
